ANNUAL REPORT

1982

FORWARD

The reports are summary statements of that which has happened in the life of the Pearl City Community Church during the year 1982. What cannot be recorded are the important dynamics that occurred among persons and between persons and the Lord. However, we view each of the reported events as arenas for these dynamic relationships to take place. As you read the reports give thanks for persons involved in the life and ministry of the church, recapture perhaps, a favorite moment which was meaningful to you and give thanks to God for what he is doing. Then, the reports may become surprisingly alive. May the reports also serve as a springboard to greater vision for God and His kingdom and our response to Him.

A word of thanks to Betty Kimura for typing, to Winnie Auyong for typing the stencils and for mimeographing the reports, to Gail Nishimoto for the cover design and to Walter Kaneakua for providing us with the new church Logo as found on this page.
