JAN-DEC EVENTS

PASSOVER SEDER MEAL - A unique experience recounting the deliverance of God's people from the oppression of its Egyptian oppressors. This Jewish Festival provides the Old Testament backdrop for the New Testament. The historical Passover is related to the tenth plague--the death of the firstborn in Egypt. Blood applied to the doorpost would secure the safety of each house so designated. The death of Christ at the passover season was deemed significant by the early church. Paul calls Christ, "our passover". This family observance, which includes a meal will be led by Mrs. Barbara Naki who was raised in the Jewish culture.
